

moNolith46[®]_Yellow

Urease inhibitor for all urea containing liquid mineral fertiliser
Contains: N-BUTYL-PHOSPHOROTHIOIC TRIAMIDE

Risk and Safety Information

Danger:

Harmful if swallowed

Harmful in contact with skin

May cause an allergic skin reaction

Causes serious eye damage

Harmful if inhaled

Suspected of damaging fertility

Use only outdoors or in a well-ventilated area.
Wear protective gloves/clothing/eye protection.
IF IN EYES: Rinse cautiously with water
for several minutes. Remove contact
lenses, if present and easy to do.
Continue rinsing.

Immediately call a POISON CENTRE
phone: +48 42 657 99 00 or doctor/physician.
Store locked up.

Dispose of contents/container to a
licensed hazardous-waste disposal
contractor or collection site except for
triple rinsed empty clean containers
which can be disposed of as non-
hazardous waste.

5 L

**To avoid risks to human health and the environment,
comply with instructions for use.**

moNolith46[®]_Yellow

Urease inhibitor for all urea containing liquid mineral fertiliser

Contains: N-BUTYL-PHOSPHOROTHIOIC TRIAMIDE

DIRECTIONS FOR USE

IMPORTANT: All instructions within this section must be read carefully in order to obtain safe and successful use of this product.

moNolith46[®]_Yellow is a urease inhibitor for all urea containing liquid mineral fertiliser. **moNolith46[®]_Yellow** reduces nitrogen losses from volatilisation of urea fertilisers and thus improves nitrogen use efficiency. **moNolith46[®]_Yellow** is applied as tank mix with urea containing liquid mineral fertilisers.

Application instructions for tank mix:

1. Wear proper personal protection including eye protection and chemical-resistant gloves.
2. Use only under adequate ventilation with large volumes of air movement.
If ventilation is inadequate, respiratory protection is required.
3. Fill spray tank with half the desired amount of fertiliser
4. Add the full rate of **moNolith46[®]_Yellow** and mix thoroughly.
5. Continue mixing while adding remaining fertiliser
6. Tank mix shall be used within 1 day.

Dose Rate:

1.0 L / 1000 L UAN

Storage:

Store this product in tightly closed original container in a well-ventilated place. Avoid contact with water and store at temperatures between -5° and 40° Celsius. Long exposures to temperatures below -5°C will cause the product to freeze and require thawing before use. Avoid high temperatures. Long term storage at temperatures above 40°C may cause the product to degrade.

In case of doubt or question please contact Phoenix technical service before using the product. Tel: +48 603 051 271
